

01 September 2010

Dear Parents

Biological Sciences Review Magazine

The School subscribes to the above magazine and the Biology Department highly recommends it to any pupil studying A Level or IB Higher Level Biology. *Biological Sciences Review* is published in four issues at a cost of £12.50 per year. It contains many relevant articles and case studies (including articles written by Chief Examiners designed to help improve examination performance). The Biology Department would like to encourage all its pupils to read widely and to make full use of the Library facilities at school, this is undoubtedly one of the best publications to use for this purpose. Past copies are available in the department for inspection.

Should you wish your child to subscribe to *Biological Sciences Review* please complete the form below and the amount of £12.50 will be added to the next school bill. Please return the form to me by **Friday 17 September 2010**.

Please do not hesitate to contact me if you wish to view the magazines or if you have any queries concerning the AS or A-level course.

Yours sincerely

Emily Akass
Head of Biology

To: Mrs E J Akass, Head of Biology, The Portsmouth Grammar School, High St, Portsmouth
